

# PRODUCT DATA SHEET

# *JULAND*

# *700 SERIES*

## *Switch / Gauge / Safety Cut-out*

### **Features:-**

- ◆ Integrated to vehicle's dashboard (Over 60 vehicles)
- ◆ Easy Installation - connect 6 wires & pop into hole
- ◆ LPG Gauge & Switch Combination
- ◆ Safety Cut-out on Gas
- ◆ Suits any ignition system (Points or Electronic)

Juland's Lifetime Warranty *"If it's faulty, we'll replace it"*

### **Benefits:-**

- ◆ *Three products in one = Less wiring!*
- ◆ *Saves Time = Save Money!*
- ◆ *Looks great = Happy Customers!*
- ◆ *Juland Reliability = Fewer returns!*

### **How it works:-**

The Juland "700" Series in-dash SwitchGauge includes an LPG Safety-Switch. The safety-switch pick-up is from any HT lead - a couple of turns is all it takes, making installation even easier. The "700" uses a *Mosfet* Transistor to switch the lock-offs and is short-circuit reverse-polarity and temperature protected.

### **Applications:-**

The "700" Series is designed for all Carburettor cars. It can also be used in EFI cars where the fuel pump can't be used for safety-switch operation, or can't be accessed.

### **Technical Specifications:-**

Gauge: 5-Led, 0-90ohm, Red=Low Fuel, Amber=Petrol

Switch: 5.0Amps, 3 Position

Safety Cut-out time approx. 1.5 Secs.
