JULAND

Tacho Start TSM2

Tacho Start Module with Injector Hold-on & Safety-Switch

Features:-

- ◆ Starts on Petrol, Switches to Gas
- ◆ Adjustable Tachometric Change Point
- ◆ Adjustable Injector Hold-on
- ◆ Compatible with Juland 500 & 800 Series
- ◆ In-built Safety-Switch
- ◆ Designed to be Hidden from view
- ◆ Juland's Lifetime Warranty *"If it's faulty, we'll replace it"*

Benefits:-

- ◆ Three products in one = Less wiring!
- ◆ Saves Time = Save Money!
- ◆ No ugly "Hanging" modules = Happy Customers!
- ◆ Use with an Integrated Switch = Happy Customers!
- ◆ Juland Reliability = Fewer returns!

How it works:-

When LPG is selected, the Juland TSM2 starts on Petrol and performs a Tachometric change to LPG. When changing to LPG there is an injector hold-on. The revs. change-point is adjustable, as is the injector hold-on duration. The safety-switch disables LPG when the engine stops turning over. The mid-position of the switch forces a "straight gas" start, bypassing the Tachometric change feature.

Applications:-

The TSM is suitable for any conversion where a European style converter is used with an 'underhanging' switch/tacho module. Used with a Juland "500" or "800" series, a very attractive and functional outcome is achieved.

Technical Specifications:-

Tacho Change:	Adjustable from 500 r.p.m. - 3000 r.p.m.
Injector Hold-on:	Adjustable from 0 sec. - 4 sec.
Safety-Switch:	0.8 sec. fixed.
